🗣️ **Languages:** Hindi (Native), English (Intermediate)

PROFESSIONAL SUMMARY

Flutter Developer with 6.5 years of experience building, deploying, and maintaining production-ready Android and iOS applications. Skilled in Flutter, Dart, React Native, REST APIs, Firebase, Google Maps, Socket.io, Agora SDK, and Stripe. Experienced in end-to-end mobile application development, backend API development, database integration, application deployment, App Store and Google Play releases, and performance optimization. Worked with Japanese clients in Agile development environments, delivering scalable and high-quality mobile solutions from concept to production.

PROFESSIONAL EXPERIENCE

Tryeno India — Flutter Developer | React Native Developer

June 2021 – Present

- Developed and maintained production-ready Android and iOS applications using Flutter and Dart.
- Built responsive and reusable UI components following Clean Architecture principles.
- Integrated REST APIs, Firebase, Google Maps, Stripe, Agora SDK, Socket.io, and third-party services.
- Worked on REST APIs, authentication, middleware, business logic, database integration, and API validation.
- Worked with MySQL, Eloquent ORM, CRUD operations, migrations, and backend maintenance.
- Developed and maintained React Native screens, integrated APIs, and resolved production issues.
- Collaborated with frontend, backend, UI/UX, QA teams, and clients throughout the development lifecycle.
- Managed Git repositories, code reviews, production deployments, testing, and release management.
- Published Android and iOS applications on Google Play Store and Apple App Store.

Projects (Tryeno India):

> **FurryCat – Game Hosting / Tournament App** [App Store | Play Store]
> Cross-platform tournament management application featuring authentication, team creation, player invitations, match scheduling, analytics, expense management, and real-time updates.

> **Jhatpat Electrician – On-Demand Service App** [Play Store]
> Home service application with customer, engineer, and admin modules, service requests, assignments, image uploads, real-time tracking, and production deployment.

> **Any Type Shop Inventory Manager** [Play Store]
> Inventory and sales management application with billing, PDF invoice generation, analytics, cloud synchronization, and role-based access.

> **Techify Care – Ticket Management App**
> Customer support and ticket management application with chat, notifications, and request tracking.

> **Smart School App & Coaching Suite** [Play Store]
> Institutional management app for schools and coaching centers with attendance, online video classes, study material, and fee ledger.

> **UdharKhata – Digital Credit Book** [Play Store]
> Digital credit/debit ledger app with automated WhatsApp payment reminder links, customer statements in PDF, and daily backup.

> **Invoice – Quick Billing & PDF Maker** [Play Store]
> Fast billing and invoice generation app with customizable taxes, item catalogs, and direct WhatsApp invoice sharing.

Del-Qui Japan — Flutter Developer

November 2023 – March 2026

- Developed and maintained Flutter applications for Android and iOS.
- Built reusable UI components and integrated REST APIs.
- Optimized application performance using Riverpod state management.
- Managed App Store and Google Play releases, certificates, builds, and deployments.
- Collaborated with backend, QA, and design teams in Agile development.
- Performed functional, UI, and regression testing before production releases.
- Managed Git repositories, feature implementation, bug fixes, and code reviews.

Projects (Del-Qui Japan):

> **Online Drinking App – Video Room Chat**
> Real-time video room application using Agora SDK with seat management, custom icons, blocking, muting, and interactive room features.

> **Food Delivery – User App**
> Food ordering application with authentication, Google Maps, payments, live driver tracking, chat, and order history.

> **Food Delivery – Driver App**
> Delivery application with Socket.io notifications, Google Maps navigation, and real-time location tracking.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, React Native, Riverpod, Provider, Responsive UI, Clean Architecture
- **Backend Development:** REST API Development, MySQL, Eloquent ORM, Authentication, CRUD Operations, Database Design (Basic)
- **Mobile Platforms:** Android Development, iOS Development (Swift Basics), Google Play Console, Apple App Store Connect
- **APIs & Integrations:** REST APIs, Firebase, Dio, Retrofit, Socket.io, Agora SDK, Stripe, Google Maps, Freezed, AutoRoute
- **Tools & Workflows:** Git, GitHub, GitHub Actions, Bitrise (CI/CD), Figma, SharedPreferences, Postman

EDUCATION

- **Bachelor of Arts (B.A.)** — Mahatma Gandhi Kashi Vidyapith (MGKVP) | 2012 – 2015
- **Intermediate (12th)** — UP Board | 2010 – 2012
- **High School (10th)** — SSVV | 2009 – 2010
